This document describes geographical areas within which DX Courier services have service level restrictions, in terms of timing of services and/or where DX needs to apply supplements as a result of increased costs. It assumes an ROI Collection Point which connects directly with all DX trunking arrangements. Deliveries by DX on non Working Days may be possible by special contractual arrangement, for which relevant Charges will apply. Postcodes not detailed have full DX service availability at standard Charges as set out in the Service Agreement Form. Note: DX Defined Locations are subject to change from time to time. Please check for updates published at www.dxdelivery.com/legal/dx-service-terms-and-conditions/

All PO Box Addresses and other Non-Geographical or Semi-Geographical postcodes are excluded from service. The service level to the offshore islands can be dependent on weather conditions and the season as to whether sailing is permitted.

Ad collections requested by customers may require a 48 hour delivery service in ROI. The customer will be notified at the time of booking.

BY AIR: DX is able to fly packages that do not exceed 45cm x 35cm x 15cm on each respective dimension (45cm x 15cm diameter for tubes), the maximum package weight is 15kg. This is subject to airline capacity restrictions and pre-agreement that the goods are compliant to fly. If your goods have been agreed for flight an increased charge shall apply as set out in your service agreement. For further information please refer to our website: <https://www.dxdelivery.com/legal/prohibited-articles/>

BY AIR: DX is able to achieve Next Day delivery service in Great Britain if items are received by the Dublin Service Centre before 17.30 and upon agreement with the customer.
